LA.Net 3 FAQ: Inscriptions en ligne aux concours étrangers

(DE|EN|**EN**)

General Information

With LA.Net 3, you can register for events abroad, provided the organizer has configured it accordingly.

As a user from Germany, Luxembourg, or the Netherlands, you can register for events in these other countries if the competition allows „international registration.“

In this case, you can register the athletes you have access to (e.g., those from your club) as if the event were taking place domestically.

Users from countries where master data is not available in LA.Net 3 (e.g., France or Belgium) can also register athletes for events in LA.Net 3.

All you need is an account in LA.Net 3. After creating one, you can register yourself or other athletes.
